

Artec, Inc. Announces Shareholders Update

Monday August 15, 5:37 pm ET

SACRAMENTO, Calif.--(BUSINESS WIRE)--Aug. 15, 2005--Dr. Ronald Shinn, President and CEO of Artec, Inc. (Pink Sheet:ATKJ), announced that the Court of Civil Appeals in the State of Oklahoma has reversed and remanded the dismissal of Plaintiff Shinn Capital Group, lawsuit against Defendants NatCel, Inc., Richard Ishmael, Wei Chen, Colm J. King, and Hard To Treat Diseases, Inc., a Florida corporation. In the Court's opinion, it stated that the dispositive issue on appeal was whether the trial court abused its discretion in dismissing the lawsuit on the grounds that a prior lawsuit pending in federal court in Florida would resolve all issues between all parties. The Court then stated, "Upon review of the record and applicable law, we conclude that the Trial Court did err and reverse and remand for further proceedings."

"We are very pleased with the Court's opinion which represents yet another victory for Shinn Capital. Shinn Capital intends on vigorously pursuing all of its rights and claims to recover all Tubercin samples, test reports, studies, lab notes, protocols, statistical data, opinions and conclusions regarding studies relating to Tubercin," states Dr. Shinn. Artec holds a valid sub-license agreement for the United States and Canada for the development and marketing of Tubercin from Shinn Capital. A copy of the complete Order can be found [Here](#); shareholders and other interested persons are encouraged to read the opinion in its entirety.

Also, Dr. Shinn announces, Artec's new branch office location in Oklahoma . The address is 3825 NW 23rd, Suite B, Oklahoma City , Oklahoma , 73107 and the new telephone number is 405-949-1808.

As the company continues to move forward on all issues, we will keep the shareholders and the public updated as to new events. Artec is appreciative of the continued support it has received. Furthermore, there are some new projects under consideration that will help Artec achieve its goals in the new future. We will be glad to share them with everyone in the immediate future. Artec's

management is extremely thankful for all the help and proposals that have been offered.
